

Ladybirds Day Nursery: Activity Plan

Activity Name:	Target age group:
Sensory Board	Babies

Activity Description:

This activity is an easy way to encourage babies to explore different textures with the reduced risk of them putting it in their mouth. They will see things that draw their attention and then need to focus on their gross motor and fine motor skills to be able to make contact with it. It is also a great distraction for tummy time as some children don't like it and this may draw out their tummy session a bit longer

Resources Needed:

Different textured fabrics (Scrap store probably best but can be found around the building too)
Strong glue or glue gun
Cardboard
